### NEW TEN YEAR WARRANTY ON INSTANT TOWER RANGE

**Instant UpRight, manufacturers of the world's leading aluminium mobile tower brand have increased the warranty period on the complete range of Instant tower products from three to ten years.**

The new warranty which is offered at no additional cost to customers covers manufacturing defects in the Instant, Zip-Up and UpRight parts that are manufactured in-house by Instant UpRight. The extended warranty will apply to the Span Tower range which includes Span 300/400/500, the Snappy folding work platform, Stairway and Snap-Out tower systems and Spandeck, the aluminium walkway and staging system. The ten year guarantee on Instant's Rib Grip Joint will also continue.

The Instant tower range features the 'Rib-Grip' jointing system which has an average lifespan of 10-15 years. The product's quality and durability has guaranteed a high Return on Investment and secured its preferred product status with the world's major rental companies, major contractor groups and multi-national companies.

Confidence in the Instant brand remains strong throughout its network of Distributors, Dealers and Customers and this was shown at the company's International Building Business Together Conference in October, held in Killarney, Ireland. More than 80 customers attended the two day event with 24 different countries represented.

**ENDS**
