Span 300

ACCESS TOWER SYSTEM

Span 300

ACCESS TOWER SYSTEM

Span 300 is a lightweight, aluminium high strength system, designed for fast, easy assembly with rung spacings of 276mm.

The new Z-configuration bracing enables quick, trouble free assembly while providing a very rigid structure.

A flexible low maintenance solution to constructing everything from simple freestanding towers to more complex staging systems. Available in narrow 0.74m and wide 1.37m, and lengths of 2m, 2.5m and 3m. Span 300 features the unique high strength Rib-Grip jointing system, guaranteed for 10 years.

All standard components have an extended 3 year warranty.

Compliant with EN1004 and Work at Height Directives. Load Class 3.

Key features

Rib-Grip – Cold Formed Joints
The cold-formed Rib-Grip jointing process is a key feature of the Instant tower system and provides three times the strength and durability of traditional welded joints. 10 year no question warranty!

Adjustable Legs
A choice of 400mm, 600mm & 800mm height adjustment is provided by Quick-Adjust legs. This provides quick and easy leveling on rough or uneven surfaces. Once loaded they cannot be accidentally released.

Fluted Frame Rungs
Provides better grip and increased slip resistance when climbing frames during assembly or once erected.

Span 300 Frame – Reversible Multi-purpose Frames
High-strength lightweight aluminium alloy construction makes components easier to handle. The Span 300 frame is fully interchangeable with all existing parts and means fewer

Automatic locking Brace Hooks & Heavy ‘Rhino-nose’
Hooks snap into locked position without prior ‘priming’ and an easy-release catch design aids disassembly. The large contact area (over 225°) gives a firm grip. The Rhino-nose is very durable for arduous site conditions resisting damage if dropped.

TX3000 Platform
The TX3000 lightweight platform is available in standard and trapdoor formats. It provides all-round edge protection. All components can be easily replaced should damage occur.

VX Base
VX bases are one-piece base sections that snap into place in seconds providing a quick sound base for easy tower erection.

Snappy 300
Snappy 300 is a highly versatile workstand for a variety of applications. It can be easily transported in a small van, and is ready for use in seconds. Snappy 300 can be extended to form a complete tower with a maximum platform height of 4m.
